

JAMES TULING

INFORMATION TECHNOLOGY

I am an IT professional with 3 years of experience in Information Technology. I have attended various training programs and seminars, developing strong analytical and problem-solving skills. I am eager to learn new technologies and adapt to different systems and technologies.

WORK EXPERIENCE

INFORMATION TECHNOLOGY STAFF

Digos Doctors' Hospital, Inc.

July 2023 - present

- Provide first-line and second-line technical support for hospital staff, resolving hardware, software, network, and system-related issues.
- Install, configure, and maintain Windows desktops, laptops, printers, and peripheral devices.
- Troubleshoot network connectivity, shared resources, internet access, and printer-related issues.
- Configure online web access for the DICOM PACS viewer for radiology doctors, ensuring secure and reliable access to imaging studies.
- Perform routine server monitoring, system backup, and recovery procedures to ensure business continuity.
- Coordinate with internet service providers and third-party vendors to resolve infrastructure and technical issues.
- Deploy and configure new workstations, software applications, and IT equipment for new employees.
- Maintain IT inventory, technical documentation, and asset records.
- Perform preventive maintenance and software updates to improve system reliability and security.
- Respond promptly to technical incidents while ensuring minimal disruption to hospital operations.

Graphics Designer Intern
